

Implementation Site	NTFGH	Date of Implementation	9 May 2024	Possible Adoption Across NUHS	WIP for NUH and AH Staff Clinic in 2025.
---------------------	-------	------------------------	------------	-------------------------------	--

Digitalise Staff Health Screening and Influenza Vaccination Screening Forms via NUHS App

What is Stupid? Why is it Stupid?

- Manual, time-consuming, and environmentally unfriendly process
- Unproductive workflow for staff and patients
- Risk of PDPA breach during form transfer
- Potential for incomplete questionnaires and inaccurate data collection

What was Implemented?

Now, patients complete and submit questionnaire via NUHS App prior to their appointments.

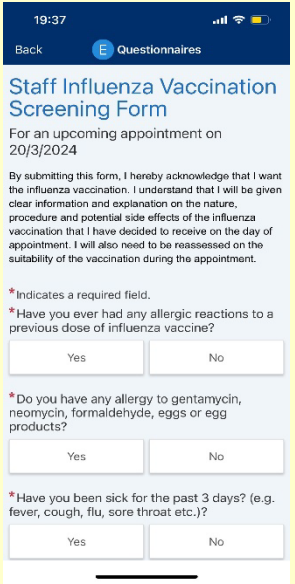

Before

- Hardcopy questionnaires filled at staff clinic
- Manual transcription of responses into EPIC
- Physical forms sent to MRO for scanning
- Total time: 60 min (Staff Health Screening), 26 min (Influenza Vaccination Screening)

Now

- Responses auto-captured in EPIC flowsheet instantly
- Total time: 24 min (Staff Health Screening), 7 min (Influenza Vaccination Screening)

Impact

- Time saved: >60% man-hours saving / **1,280 hours annually** (36 min/patient x 1,500 patients + 19 min/patient x 1,200 patients)
- Paper saved: **7,200 sheets annually** (1,500 patients x 4 sheets/patient + 1,200 patients x 1 sheet/patient)
- Decreased risk of PDPA breach
- Improved data accuracy and report preparation

NTFGH Health & Wellness Clinic (Staff Clinic)

Digitalisation of Staff Health Screening and Influenza Vaccination Screening Forms via NUHS App

Patients complete and submit questionnaire via NUHS App prior to their appointments. Responses are auto-captured in EPIC flowsheet instantly

- **1,280 hours** of staff' time saved annually
- **7,200 sheets** of paper saved annually, contributing to environmental sustainability
