Patients can get advice on whether to seek care at a GP clinic, UCC, or the Emergency Department.

View real-time ED waiting times, refreshed every 30 minutes, helping patients better plan their visit and manage expectations.

Patients can submit their HDF via the app and show the completed screen at the ED entrance.

Patients can now easily find clinics near them—within 2km of their current location or based on their address.

Please note that patients with life-threatening conditions will be prioritized in A&E. For mild to moderate conditions, you may consider visiting the nearest GP clinics.

• For adults, find GP/first clinics here.

• For children, find Paediatric/ENHAGE clinics here.
