

Congratulations
to our recipients of the

Public Sector Transformation Awards 2026

The **Public Sector Transformation (PST) Awards** is the Whole-of-Government (WOG) pinnacle platform to recognise and reward public officers and public agencies for excellence in their work and organisational practices. The awards recognise efforts at three levels – agency, initiative and individual levels. The focus of the awards are on working as One Public Service, engaging citizens, innovating and digitalising services and functions, improving our regulatory environment, and encouraging transformation across areas of our Work, Workforce and Workplace.

Exemplary Innovation Award
