

Start using

MICROSOFT TEAMS

to communicate
with your colleagues

Microsoft Teams is a **secure messaging service**.
You can use it for all your communications and
collaboration needs.

TigerConnect will no
longer be available
from **1 April 2024**.

If you are a TigerConnect user who does not have Microsoft Teams, you
would need to have Microsoft Authenticator and Comp Portal installed on
your mobile phone. Please take steps to onboard latest by **28 February 2024**.

Do note that the process for external non-PHI TigerConnect users will be different.
